What's new?

The Foreigners' Registration Office offers a new website with new online services in a secure way.

The previously existing e-mail boxes of the departments have been switched off and can no longer be used. Please use our new online services on the website.

You will find a corresponding contact form on the website for both the application and any other contact. You will no longer have to fill out the paper applications that were previously required. You can now even use a mobile phone for the application.

Our online services will provide you with all the information you need to submit your application and the necessary documents.

You want to apply?

On the new website you will find detailed information about the possible purposes of residence in the section "I would like to apply".

On each information page you will find a list of documents to be prepared. As soon as you have all the necessary documents, you can submit your application at the bottom of the respective page.

Do you have any questions?

Information on the individual residence purposes and their requirements can be found in the "I would like to apply" section. If your question is not answered there, you will find further answers to the most frequently asked questions in the FAQs.

If you have a question that is not answered either in the FAQs or on the information pages, you have the option of contacting the Foreigners' Registration Office via the "I have a question" section.
