TONGJI UNIVERSITY COLLEGE OF DESIGN AND INNOVATION

At early stages, the core design education at Tongji was linked to architectural studies. In 2009, the University moved its design department out of the architecture school, and established a new school—the College of Design and Innovation, Tongji University.

D&I is now one of the most internationally renowned design schools in China, and it enjoys membership in the CUMULUS, ICSID, the Fablab Network and the European Network of Living Labs...

D&I has around 700 full-time students, and the College focuses on **“smart, sustainable design for industrial transformation and future living.”**

Modern vs Traditional

Shanghai is a modern international city where you can see the rapid development of the financial industry, business, fashion and entertainment culture.

At the same time, Shanghai is also a Chinese city with its own characteristics, you can understand the local customs and more direct contact with Chinese culture.

If you can only live once, then do not waste it,
come to China, you will know the real world.

为人生的意义和世界的未来而学习和创造
